## 36.101 Applicability.

- (a) Construction and architect-engineer contracts are subject to the requirements in other parts of this regulation, which shall be followed when applicable.
- (b) When a requirement in this part is inconsistent with a requirement in another part of this regulation, this  $\underline{\text{part 36}}$  shall take precedence if the acquisition of construction or architect-engineer services is involved.
  - (c) A contract for both construction and supplies or services shall include-
    - (1) Clauses applicable to the predominant part of the work (see subpart 22.4), or
    - (2) If the contract is divided into parts, the clauses applicable to each portion.
